IMPRESS ERP

ERP is software which integrates all functionalities of the organization in a single database. It streamlines all the business processes and gives desired result on a click of a button. Earlier ERP was for big organization due to its cost, but now it is made for SMEs (Small and Medium Enterprises) of different segments.

Advantages of an ERP

- Speeding up the whole process
- WIP (work in progress) control
- Easy project management
- Accessing the status on a click of a button
- Fastens the creation of reports
- Reduce paper works and repeated entry
- Quick processing of information
- Solve the problem quickly
- Information based decision
- Better finance reports
- Reduce process cycle time
- Consistency & Controlled flow of info

Name of the Library software : NewGenLib

Nature of automation (fully or partially) : fully

Version : 3.1.1

The central library is fully automated using NewGenLib (open source software). NewGenLib is a software which was developed as a proprietary software in 2005 but since its version 2.1 declared itself an open source software under GNU General Public Licence in 2008. NewGenLib was developed by Verus Solutions Pvt. Ltd. in collaboration with Kesavan Institute of Information and Knowledge Management based in Hyderabad, India. Recently Version 3.1.1 of NewGenLib has released under the name of NewGenLib Discover Series (NewGenLib, 2015).

NewGenLib : NewGenLib is a complete solution for libraries. It is a unique combination of a library automation software, digital library software and a database search facilitator. With its version 3.1.1 users can not only search library catalogue, but also search various databases subscribed by the library and some open access databases at a single click. NewGenLib is based on Client-Server technology for managing library functions and creating digital library where as its Online Public Access Catalogue is accessible through the Web.
