7.1.9 Sensitization of students and employees of the institution to the constitutional obligations; values, duties and responsibilities of citizens

Human values and professional ethics play a very prominent role in the work life of teachers, students and the institution. Educational Institutions have a predominant role in shaping the society. It is very essential for every educational institution to inculcate values among the students in extending their duties and responsibilities. Teachers play a crucial role in moulding the students.

Siddharth Institute of Engineering and Technology specifically focuses on the development of human values and professional ethics among the students and also emphasizes its importance for the teaching and non-teaching employees of it. To inculcate these values, it organizes various programs for students in which they actively participate. Such programs include conducting blood donation camps, awareness programs on road safety, programs emphasizing the importance of casting vote in elections, educational programs for school children by using innovative teaching methods. Not only the students, employees of Siddharth Institute of Engineering & Technology participate in such programs in nearby rural areas and contribute towards the society in their purview. Teaching and non-teaching fraternity along with students contribute to their monetary and non-monetary services during the calamities. The institution gives importance in conducting programs and workshops also for the enhancement of human values and professional ethics. Siddharth Institute of Engineering conducts all its administrative and academic activities in transparent manner.

Siddharth Institute of Engineering and Technology has initiated efforts towards educating its students about the Constitutional obligations. It has incorporated in its curriculum courses such as Constitution of India, Human Values and Professional Ethics, Environmental Studies. These are few of the courses that help in sensitizing the students about their values, rights and also about duties and responsibilities towards the society. Employees and Students of Siddharth Institute of Engineering actively participate in different events such as creating awareness about road safety, voting in elections, maintaining clean premises, etc. Students come forward to educate the people in the nearby rural areas about these events.

CLEAN AND GREEN PROGRAM IN RURAL AREAS

Students participating in Clean and Green Program

Students participating in Clean and Green Program

Siddharth Institute of Engineering and Technology actively encourages students to take up clean and green activities in the rural areas and create awareness among the people to maintain clean and green premises. Majority of students are enthusiastic to participate in social service activities. Clean and Green program in rural areas was conducted by the institution on 20-12-2021 in the nearby village Parameswara Mangalam and its surrounding villages. The students were eagerly involved in cleaning surroundings in those rural areas. For the healthy society, it is very essential to maintain clean surroundings in order to build a healthy society.

PREVENTION OF RAGGING

The Judiciary, the Revenue and the Police department about the prevention of Ragging

Siddharth Institute of Engineering and Technology organised a program on the Prevention of Ragging Menace in Educational Institutions on 10-08-2021. The menace of ragging causes problems not only for the victims of ragging and also for the students who are responsible for the cause of ragging. It is very much essential to create awareness on the harmful effects of ragging for the students. For this, the three departments' judiciary, Revenue, and Police vigorously addressed the students about the negative effects of ragging and the necessity of prevention of ragging and encouraged the faculty members to address the importance of ethical and moral values and study in a peaceful atmosphere.

WORLD ENVIRONMENT DAY

World Environment Day (WED) occurs on 5 June every year, and is the United Nation's principal vehicle for encouraging worldwide awareness and action for the protection of our environment. First held in 1973, it has been a flagship campaign for raising awareness on emerging environmental issues from marine pollution, human overpopulation, and global warming, to sustainable consumption and wildlife crime. WED has grown to become a global platform for public outreach, with participation from over 143 countries annually. Each year, WED has a new theme that major corporations, NGOs, communities, governments and celebrities worldwide adopt to advocate environmental causes.

Every year on 5 June, World Environment day is organised by Siddharth Institute of Engineering & Technology with fervour and spirit. It is very supportive and friendly to control the global warming and other toxicities. On this occasion, the principal Dr. K.Chandrasekhar Resddy and faculty members did participate in tree plantation. Students of Siddharth Institute of Engineering & Technology, participated with eagerness in planting the saplings in around the college campus surroundings and also in the nearby village Narayanavanam. Tree plantation is not only for the beautification of Nature but also it contributes to the reduction in air pollution and enhances ground water levels.

AWARENESS PROGRAM ON WEARING HELMET

Road safety is a safety measure to reduce the risk of road accidents and road side injury because of the mistakes of people while driving on the road. We cannot count the daily road side accidents and death of people because of the driving mistakes and lack of road traffic rules followers. Every person going on the road has risk of injury or death. Such as pedestrians, motorists, cyclists, passengers, etc.

Everyone needs to be well aware of the road traffic rules especially children and young people who are at significant road accident risks. According to the statistics (World Health Organization, 2008), it is found that most of the hospitalization cases and leading cause of death are because of the road trauma.

Siddharth Institute of Engineering and Technology held a program on the awareness of wearing helmet. The CI of Puttur, Sainath instructed the students and employees to wear the helmet while driving. It is mandatory to avoid the road accidents, unfortunate incidents. The Circle Inspector speaking in the event stressed that Youth must follow the safety measures and save their lives. He also mentioned about ill effects of fast driving on the roads and cautioned the students to avoid speaking on phones while driving.
